

Roger Perron MBA nominated for AAC Treasurer

Incumbent

Roger has been on the AAC Board since 2012, initially as Regional Director for BC Mainland & Yukon and most recently, Treasurer for the last 9 months. On the competitive side, he teams up with an 8 yr old Pyr Shep who has been on the podium at both Regionals and Nationals. He judges AAC, UKI, and CKC agility, and serves on the board and teaches handling at his local club (CODAC). He has served on the boards of several companies and clubs over the years and has been Treasurer for several organizations.

Roger's experience is mostly in financial management and leadership in the corporate business environment. He is recently retired as CFO & Executive Vice President of a Canadian nonprofit charity he helped lead for some 16 years. He has an MBA from the University of Alberta and has enjoyed a career of helping small to medium sized corporations reach their next level of growth. He co-founded a wine distribution company doing business in BC and Alberta, owned a financial services firm with over 10,000 clients, and oversaw the merger of two nonprofits that ultimately became the largest and most financially sustainable nonprofit charity in its' field.

AAC is at a stage in its' growth that it needs another level of financial oversight and development. Roger believes he can provide the leadership to see that is done in a way that the association can continue to be a leader within the Canadian agility community. He believes communication is a key element of management these days and has initiated regular reporting to the Board of Directors and the membership so that faster decisions can be made from better information.

Voting for Roger will be voting for increased financial accountability, structure, and communication.
