

Stacey Melko

Ontario West RD Nominee

I started out in agility with our 4 year old Border Collie rescue in 2011 and quickly became addicted. A year later, we rescued a Border Collie puppy. At the time, I had just started competing with our older guy. After a couple of trials, we quickly realized it wasn't the sport for him. But since he was crazy for disc, our training turned to learning many of the tricks for that sport. But the puppy loved everything. Agility, Rally, Disc and tricks. And that's when our adventures in agility really took off. He is 6 now and we compete in 4 different agility organizations and have competed in 5 National events in both Canada and the US. My work background is in Management and Purchasing. Both of which have many transferable skills that will be a benefit to the AAC organization. I am looking forward to being more involved in the organization as the Ontario West Regional Director.
