

Dawn Hubick RD - SK/MB/NU

I currently reside on an acreage on the outskirts of Regina, Saskatchewan. I share my life with my husband of 27+ years, one daughter who currently attends the University of Saskatchewan and our three Border Collies. My husband and I own and operate a truss manufacturing company.

My obsession with agility started 18+ years ago when I signed up for my very first agility class. I was instantly hooked and in that time, I have been blessed with amazing dogs who have shared my passion.

In 2005, I became an AAC member so that I could be informed of changes within the organization and be further involved in the sport. This led me to become an AAC Judge in 2007. Judging has given me the opportunity to travel all over western Canada and to meet many agility competitors and see a variety of venues. Over the years, previous Regional Directors have designated me to do inspections, equipment and facility approvals. I am also an Examining Judge and in that role, I am actively involved with helping and mentoring prospective and new judges. My goal is to help them to become proficient in their position by aiding them in learning and implementing the rules and regulations of the AAC.

I have a strong presence in our local agility community. I am actively involved in teaching agility, training my dogs, and attending competitions as both a competitor and judge. I have judged 5 Regional Championships (1 in Alberta and 4 in British Columbia) and have attended every Saskatchewan/Manitoba/Nunavut Regional Championship as a competitor or volunteer for the past 14 years.

My goal as your regional representative is to advocate for the members by providing a strong voice for every member of the Saskatchewan/Manitoba/Nunavut Region. I want to grow our sport locally while maintaining the highest standards of the sport.
