

Agility Association of Canada / Association d'Agilité du Canada

Hello Everyone!

I am a person of little words but a big heart for the sport we love.

My first introduction into agility was bringing my 4-year-old BC to his first class at the local club my friend was a member at. I quickly became hooked. Although he didn't seem overly engaged in class, he loved it when we did it at home. Flash forward to a year later when I brought our first ever puppy home (after 5 dogs). He was 10 weeks old. And although my now 5-year-old did some trials, I knew agility was not the sport he loved. But how about my 10-week-old pup? Yes, he did.

Another flash forward. Regionals, Nationals at 2 years of age, another Regional and Nationals. Different organizations and winning one of them in his division. More Regionals, placements. What an amazing experience!

I know this is supposed to be a bio of me. I know I should tell you about myself and why I should be your Regional Director for another term. And how grateful I am for you who have supported me throughout my first term.

But I am a person of little words. These words are first and foremost. I am so very grateful that I am a part of such an amazing community. And how fantastic to see all of you step up to the line.

Thank you so much.

Stacey Melko

Regional Director Ontario West
