

George Mills

Regional Director New Brunswick - Prince Edward Island - Nominee

I am a resident of Kensington PEI and have been involved in agility since 2008 and first started playing the game of agility at trials in 2009. For the first few years I ran my friend Jim Bartley's border collies, Ready and Pande. In 2011 I got matched up with my own border collie pup, Chic, and a year ago my second girl, Gracie arrived home. I retired from the work world in 2017, a move which proved to be temporary as I responded to a call back in 2018 and my current work status is off and on. I expect the transition to retirement to become permanent in the next year or two.

My vision of the director's role is mainly to encourage participation in agility and to become a liaison between the AAC executive and AAC participants in the NB-PEI region. I am acquainted with many of the agility players here and am accessible through e-mail, Facebook or in person at trials or seminars. From the opposite perspective, we have a group of knowledgeable and interested people including our retiring director, people who run local trials and Regionals, and a good group of participants both new and experienced, to draw upon for input if required. We want to ensure equipment that is safe for our dogs and course design that is fun for the players and considers the safety of the ever faster dogs in our sport.

Agility is evolving and we would like it to be better in every way possible.

Thank you,

George
