

## Isabelle Michaud Agility Bio – AB/NWT Representative Nominee

My youthful appearance will make this hard to believe but I have been involved in the sport of agility for 25 years. Over those years, in addition to being a member and avid competitor, I've had the pleasure of supporting the AAC in various ways including:

- Masters level judge for over 10 years (now retired),
- Club member and trial organizer,
- Member of organizing committees for Regional and National events, the most recent being the wildly successful 2023 AB/NWT Regionals,
- Past AAC AB/NWT representative, and;
- Past and current member of various AAC committees including as current Chair of the AAC development committee.

In addition to my agility-related experience, I have over 20 years of senior leadership and business experience to draw upon. Both in business and my personal life, I am committed to hard work, accountability and transparency, all of which I would apply to the role.

My intent in putting my name forward to represent my region was to give back to the organization and its members and to assist with continuing to drive forward positive change. I believe that the AAC's strongest asset is its diverse membership and that all members, whatever their skill level or goals, should have a voice and receive value from the organization.
