

I have been involved in agility since 1996 and have been a member of the Agility Association of Canada for 30 years. As a Masters Level judge for 26 years, I have been honoured to be a part of this community and witness the growth and changes in our sport. I believe we have more growing to do to keep making this sport the best we can for its participants, human and dog!

I have spent the last two years on the Board of Directors and I have learned a lot about the inner workings of AAC. Its been quite an eye opener! There was a lot of learning about how an organization of this size operates. It's not what I thought! I better understand how things need to be done and why, after this last 2 years on this board! And I am so appreciative of my fellow board members who have put in so many hours trying to help this organization grow and improve. Nothing happens overnight but I feel we are on the right track!

I have thoroughly enjoyed the interactions with the BC Members. They have been receptive when asked for input, respectful in their communications, and they genuinely want to see this organization thrive! That made the last two years so much easier, so I thank each and every one of the members of BC!

We have made a lot of positive changes in the association over the last two years but I feel like my work is not quite done! I am prepared to continue to try to improve our organization, especially with regards to Judges Education and course design that is appropriate for our Canadian agility enthusiasts!

I am dedicated to fostering a safe, respectful, and inclusive environment for all AAC members. I believe it is essential for members to have a platform to express their ideas and opinions about the future of our association. I will continue to ensure every member feels valued and heard.
