

I have been involved in agility since 1996 and have been a member of the Agility Association of Canada for 28 years. As a Masters Level judge for 24 years, I have been honoured to be a part of this community and witness the growth and changes in our sport. I believe we have more growing to do to keep making this sport the best we can for its participants, human and dog!

My commitment to AAC extends beyond judging; I served as Chair of the Regionals and Nationals Committee that was tasked with developing the current AAC Regionals and Nationals program. I also served on the Development Committee that was tasked with reviewing a new International program for the AAC.

Additionally, I have contributed to five different world teams, as a coach, team captain, or competitor. I was a member of the very first IFCS team representing the AAC with two of my dogs.

I have run my own training school for 24 years and I was a founding member of our local AAC Club, Top Dog Agility in 1996. Top Dog hosted the AAC Nationals in 2003 and the club is still running trials today.

I am dedicated to fostering a safe, respectful, and inclusive environment for all AAC members. I believe it is essential for members to have a platform to express their ideas and opinions about the future of our association. Full transparency in our processes is imperative, and I am committed to revitalizing member involvement in the significant decisions that impact us all.

I believe the role of Regional Director is to promote healthy communication between the members of the Region and the Board. My goal is to enhance our community spirit and ensure every member feels valued and heard.
